

Latest published data for this Provider and Specialty

Time trend for referral-to-treatment waits

DATA QUALITY CROSS-CHECK: SEP 2023

Reported clock starts 815
Expected clock starts 964 **Another 149 (18%) have appeared****

Calculation of expected clock starts

Admitted clock stops*	192
Non-admitted clock stops*	642
Waiting list at start	10,819
Waiting list at end	10,949
Growth in waiting list	130
Expected clock starts	964

*with a known clock start **May include inter-provider transfers

The top chart shows how tough it is for this service to eliminate 78, 65 and 52 week waits – both the red and green '92%' triangles need to be left of the target line.
